Save

Cost & Increase ROI

- ✓ Zero-tiered dynamic auto-addition of licenses.
- ✓ Pay-as-you-go pricing and Usage-based billing.
- ✓ No multi-year lock-ins. Opt-out anytime.

WHY
BACKUP

SaaS **Data Loss**
is Prevalent and Damaging

81% of companies lost
SaaS data

only

15% could recover it
without third-party
backup

WHY BACKUP

“ Box Does Not Offer Point-in-time Recovery

“There is a 14-day grace period when content is removed from Trash during which User Services can recover your content. After this, we cannot guarantee that the files or folders will be recoverable.”

box

“ Backup Means No More Data Loss

Backup SaaS data or risk losing customers, partners, and employees.

Gartner

Backups are critical in ransomware recovery and response, if you are infected, a backup may be the best way to recover your critical data.

CISA

“ Regulations Mandate Backup

The controller should have the ability to restore the availability and access to personal data in a timely manner in the event of a physical or technical incident.

GDPR

It's Your Responsibility!

The SaaS Shared Responsibility Model puts the onus of the data protection, backup, and recovery of your customer's data on you

Recover from Ransomware and Data Loss

Mitigate the risk of ransomware and reduce the cost of downtime with quick data recovery. Encrypted and immutable SaaS backup with unlimited retention lowers your Recovery Time Objective and ensures seamless business continuity.

Native Workarounds are Time-bound and Cumbersome

Native workarounds like Trash and Recycle Bins are archival and not built for data recovery. Restoring data is tedious, and after the time limit, data is permanently deleted.
